

## HPCL. LPG Safety Seminar at Gorakhpur on 5th Jan 2022

To celebrate the 75 years of Independence (□□□□□□□□□□□□□□□□); MOP&NG had planned for various activities to be conducted by OMCs.

Gorakhpur LPG Regional Office organized LPG Safety Seminar on 05 January 2022 at Shahpur, Gorakhpur. Following activities were undertaken during the Seminar:

- 1) Brief Description of Ujjwala - 2.0 Scheme
- 2) Experience sharing by 5 Ujjwala beneficiaries
- 3) Do's and Don'ts of LPG Installation
- 4) Emergency measures in case of leakage
- 5) LPG safety Tips

The Program saw physical participation of more than 200 persons. Live online broadcast of

the said program was also done at 10 places, which saw more than 800 participants attending the seminar through virtual mode. Some glimpses of the said program are mentioned below

**Study tour of Kendriya Vidyalaya students to gas installation/well of ONGC at Agartala, Tripura in the North East on 5.1.2022**

Around 106 students from Kendriya Vidyalaya (ONGC North Colony, Agartala) visited Tripura Asset's ADB Installation on 05.01.2022, as part of the Study Tour activity of the Azadi Ka Amrit Mahotsav series of events planned for celebrating 75 years of Independence.

COVID Appropriate Behaviour was strictly followed while conducting the trip. The students travelled from ONGC's Base Complex at Agartala in buses provided by ONGC. For added security and comfort of the students, they were accompanied by teachers from the school for proper supervision.

Senior executives from ONGC Tripura Asset, at ADB GCS (Gas Collecting Station) gave a brief overview of the energy business beginning with a film on the origins of oil and gas from the fabled archives of ONGC Museum in Dehradun followed by another short video presentation on ONGC's energy business.

Later on, the students were given a walkthrough of the Installation and its key areas viz. Christmas Tree (ADB Well#01), Process Area and Dehydration Unit (from a distance), Manifold Area etc.
